Jessica:

In your attachment for the data requirements you have 835.2410 listed with a YES marked next to it for chlormequat chloride. This is a required study. Again, per my last email, if you don't have this study to submit and want to submit a rationale for why it would not be required, this would need to happen by April 10th.

Thanks,
Heather

Hello Heather,

I have forwarded you the email I sent to Tony Kish with our meeting minutes. Our meeting with EPA was on 7/14/2016. The meeting minutes outline what was discussed during our meeting. I have also attached the documents we presented to EPA during the meeting. I sent the presentation and the list of data requirements (and how we plan to fulfill the requirements) to Tony on 7/1/2016.

I will send you my rebuttal to the 10 day deficiency letter, along with my updated data matrix later today.

Thank you,
Jessica

Hello Tony,

I have attached the meeting minutes from our meeting on July 14, 2016 where we discussed data requirements for a Section 3 registration of chlormequat chloride for food use. I appreciate your willingness to meet with us and allow us to get a better understanding of how to move forward with this project. Please let me know if you have any questions or comments.

Regards,

Jessica McLaughlin
